ICNet! is dedicated to bringing you cutting edge web design and hosting packages that fit all levels of business, from simple hosting and a handful of email addresses to clustered e-commerce hosting, hundreds of email addresses and custom dynamic web page development. We can assist you with your internet needs and have been doing so since 1995. In an effort to focus on local business needs, ICNet in partnership with the IT Service Station has broadened and redefined its service offerings to assist you *in your offices* with your computer and business network needs.

With over 30 years IT experience between them, you can rest assured that your computers and network are in safe and competent hands with the IT Service Station. No more wondering when your part time techie will get off work or get back from vacation to restore a file, get a printer back on line, or fix the E-mail. We are a one stop shop that is *always* available to serve your technology needs. You have an issue and it is related to your computer or network..... WE CAN FIX IT!

Let us maintain, upgrade or expand your Windows and or Linux network  
Let us give remote users access to your internal network.  
Let us integrate a true firewall, VPN or intrusion detection devices into your LAN or extended office.  
Let us protect proprietary company information from unauthorized employees  
Let us verify you are backing everything up, and in compliance with the Sarbanes-Oxley Act of 2002.  
Let us install your next business phone system or IP security camera system.  
Let us securely design and deploy your next wired or wireless network. Or review your existing one.

**As a free offer to you, so you can gauge the potential of the IT Service Station as your local technology provider, please allow us the opportunity to provide your business with a free network assessment and security audit. Visit <http://www.itservicestation.com/offers> for details.**

Sincerely,
